This book is about community nursing theory, knowledge and skills. It is based on our research into education for primary health care, community nursing roles, practice and policy in Australia (Keleher, 2000; St John, 1991, 1997), together with many years of teaching community nursing and public health.

[Community Nursing Practice: Theory, skills and issues ...](#)

Community practice is a stimulating and diverse field of nursing. Community nurses often work without direct support from other health professionals and need, not only excellent clinical skills, but also skills in communication, research and health promotion.
