But in the Pacific, the Battle of Saipan was of extreme strategic importance. This is a gripping account of one of the most dramatic engagements of World War II. The conquest of Saipan and the neighboring island of Tinian was a turning point in the war in the Pacific as it made the American victory against Japan inevitable. Until this battle, the Japanese continued to believe that success in

15 June 1944: D-Day in the Pacific invasion of Saipan
D-Day in the Pacific the invasion of Saipan. LVTs running into the Saipan beaches. A view of the landing craft running into the Saipan beaches. The US Navy was ready for another invasion. This time they would land around 77,000 men, about half the force that landed on D-Day in Europe. But this time they had travelled rather further than across the English Channel. The Pacific the island
