[Desert Biome Facts - 14 Facts about Animals and Plants](#)

Desert Temperatures Vary Depending on Type of Desert. There are three types of deserts: Cold Winter, Cool Coastal, and Subtropical. Subtropical deserts may be the type of desert we most commonly tend to picture in our minds, but the biggest desert is a cold winter desert. The average temperatures in these deserts vary. The deserts can be found at different latitudes, which affects their temperatures. Deserts near the equator are subtropical, whereas the deserts towards the poles are colder.
