Doing Physics makes concepts of physics easier to grasp by relating them to everyday knowledge. Addressing some of the models and metaphors that physicists use to explain the physical world, Martin H. Krieger describes the conceptual world of physics by means of analogies to economics, anthropology

How physicists get hold of the world through those analogies is the way Nature is for them. They understand each analogy in a highly stylized and particular way, and to so understand Nature is to be trained as a physicist. When understood in one of those highly stylized ways, the physics, the everyday objects, and the grammar or language overlap nicely. Nature would seem to accommodate many
