Environment and Globalization: Five Propositions human dependence on our environment.6 A globalized economy can also produce globalized externalities and enhance global inequities.7 Local environmental and economic decisions can

### Environment and Globalization

economic development, have hampered these efforts. First, we will look at some specific disputes involving the environment and free trade as a means to illustrate the difficulty of balancing these concerns and to see how the international trading system has approached the problem.

### Agricultural Growth and Economic Development: a view ...

overall economic development, and asks whether the relationship still holds in an increasingly globalized world. There is overwhelming empirical support for the above proposition, indeed, it is hard to find exceptions, barring a few city states, where sustained economic development

### The Impact of Globalization On Economic Growth

The 2008 economic crisis led many politicians to question the merits of globalization. Since then, global capital flows fell from \$11 trillion in 2007 to a third of that figure in 2012. While some of that may be cyclical in nature, many countries implemented tariffs and other forms of
