Fabric structures can be used in any space that requires shade for both humans and animals. Popular settings include playgrounds, recreation facilities, animal shelters, horse paddocks, entranceways to buildings and events needing portable shade. Decorative in nature, fabric structures can also be used as a centrepiece in any space.

Additionally, one of the primary advantages of a fabric
Fabric Structures in Architecture - 1st Edition
Fabric Structures in Architecture covers the varying ways textiles and their properties are used in building construction, with particular focus given to tensile structures. The text begins with the fundamental principles of textiles, including the origins of fabric architecture, then progressing to a discussion of the modern textiles of today. It covers relevant textile materials and their
