With today's outdoor security camera technology and web-based video storage platforms, many homeowners can install and configure their own wireless security camera system without the need to hire.

3 Ways to Install a Security Camera System for a House ...

To install a security camera system for your house, start by surveying the layout of your home and assessing how many cameras you'll need. Once you purchase the system, install the cameras high up on the walls so that they have a broad frame in the shot. Most cameras mount to the walls with screws, and can be plugged into a regular outlet. Connect wired cameras to the monitoring system using BNC cables, or link wireless cameras to your computer. [New How To Set Up a Security Camera System - 123CCTV](#)
