interaction between people and their environment. Contributions examine the roles of social, cultural, and psychological factors in the maintenance or disruption of ecosystems and investigate the

[Human ecology | sociology | Britannica.com](#)

Human ecology: Human ecology, man's collective interaction with his environment. Influenced by the work of biologists on the interaction of organisms within their environments, social scientists undertook to study human groups in a similar way. Thus, ecology in the social sciences is the study of the ways in
