International Handbook of Occupational Therapy ...

Abstract The International Handbook of Occupational Therapy Interventions came about through extensive literature searches on occupational therapy and medical

rehabilitation. These searches also helped in selecting the authors of the chapters in this book, who are experts on clinical interventions in occupational therapy. The searches also identified four major roles for the occupational therapist (OT): (1) to manage adaptations applied to the client's environment, (2) to teach clients. **International Handbook of Occupational Therapy ...** The *International Handbook of Occupational Therapy Interventions* breaks with this tradition, organized by type of intervention based on recommendations in the *International Classification of Functioning* and organized according to the occupational therapist's expert roles as manager for adaptation, teacher for learning occupations, enabler for recovery and promoter of health and wellness.
