What is the difference between a LAN and Intranet? - Super ...

If you wanted to go with the raw definition, every network in the world is a small internet, and every internet/intranet is a LAN/WAN just composing of different rules and some variations in the protocols, usually to combat security issues.

What is the Difference between Internet and Intranet ...

Intranet contains only specific group information. Therefore the Internet is an open, public space, while an intranet is designed to be a private space. An intranet may be accessible from the Internet, but it is protected by a password and accessible only to authorized users.
