[Seeing Trees](#) celebrates seldom seen but easily observable tree traits and invites you to watch trees with the same care and sensitivity that birdwatchers watch birds. Many people, for example, are surprised to learn that oaks and maples have flowers, much less flowers that are astonishingly beautiful when viewed up close.

[Olive tree problems \(losing leaves\) | UBC Botanical Garden ...](#)

The trees rapidly produce new leaves even from very old wood (trunks perhaps more than 100 years old). So as long as your trees are still alive, I think it should recover. However, as Liz says it is a mediterranean species and loves light and heat and not much water. So I think you do need to review the growing conditions.
