CHAPTER 1 NATURE OF FINANCIAL

MANAGEMENT Q.1. A.1. Define the scope of financial management. What role should the financial manager play in a modern enterprise? The scope of the financial management is to secure the capital needed by the enterprise, and employ it in production and marketing activities, in such a way that it can generate the sufficient returns on invested capital, with an

Chapter 1.5 Money Management. 1 MONEY MANAGEMENT The most important part of investing is money management. Money management involves determining how much of your overall portfolio you are willing to put at risk in any one trade and how many contracts your risk tolerance warrants. Proper money management can be the difference between a successful account that you are able to manage far into the
