The Crises of Capitalism: A Different Study of Political
Economy. For nearly 300 years, capitalism propelled the
world's most successful economies to new heights of
development. But a spate of global environmental disasters
and severe economic crises compels thinkers to question
whether the system continues to function.

[The Crises of Capitalism: A Different Study of
Political...](#)

But a spate of global environmental disasters and severe
economic crises compels thinkers to question whether the
system continues to function. Leveraging historical
perspective, extensive research, and case studies, The
Crises of Capitalism builds a compelling argument that
challenges the most fundamental assumptions of prevailing
economic theory.
