I purchased three other Pro Tools books before this, to get up and running with Pro Tools as a newbie to the software/hardware. Then, I got this one. This book rocks as it is a hands on, practical tutorial taking the reader step by step through the user interface, recording, editing, tweaking things the way you'll eventually use the software.

Pages | ISBN: 0072231750 | File type: PDF | 11.6 mb This
expertly written guide will show you exactly why Pro
Tools shrinks a full music studio into a computer,
replacing the bulky recording infrastructure of multi-track
analog mixing boards and rolls of two-inch-wide magnetic
tape.
