## IPS Containers - Trusted Systems

What is an IPS Security Container? IPS (Information Processing System) Security Containers are a cost effective alternative to a CAA or facility/SCIF build out, allowing on-line, closed-door, unattended, 24/7 operation of stand-alone or networked classified applications. IPS Security Containers - Trusted Systems - Classified ...

Where a SCIF has a permanent location and fixed size, the Trusted Systems IPS Container is a fully authorized CAA alternative, self-contained, modular, scalable, and most importantly, transportable. This offers a high degree of flexibility for network deployments, upgrades or reconfigurations due to changes in architecture. Trusted Systems IPS Containers are more than just storage containers; they protect classified network applications for SIPRNET or JWICS nodes, wireless access points
