Automate UI testing with Javascript, node - starting ...
I'm currently investigagating automated UI testing using
JavaScript on windows with node.js and phantom.js and
unsurprisingly I've found many frameworks that can help
in this regard (casper.js, Buster.js, etc).

Using Node.js for UI Testing [Book] - oreilly.com

"Using Node.js for UI Testing" is a quick and thorough
guide on how to automatically test your web app, keeping
it rock solid and bug-free. You will learn how to simulate
complex user behaviour and verify that your application
behaves correctly. You will create a web app in Node.js
that uses complex user interactions and AJAX; by the end
you will be able to fully test it from the command-line.
Automated Web UI testing in nodejs - Stack Overflow
Zombie is a headless full-stack testing framework for
Node.js. Edit: To add to that, there's a full list of testing
modules on the Node.js GitHub wiki.

Automating REST API Penetration testing using OWASP ZAP

Recently, I have been working on automating REST API penetration testing using OWASP ZAP tool. I had spent couple of days on evaluating different open source tools but after all I have eventually decided to automate ZAP since it provides almost all the API through we can scan REST API.
