Quick tour of a service panel. This picture has the cover removed. At the top is the main breaker; flip this and your whole house goes dark. You'll want to flip this off when working in the panel.

[hackme: Deconstructing an ELF File](#)

A friend recently asked me to find the password for a little hard-to-hack program he had written and I agreed to it. The short journey of a few hours that led me to its password were extremely interesting and this article describes the process as well as some of the new techniques learnt along the way.

[Configuring Secure Sockets Layer \(SSL\) support in a Db2 ...](#)

This procedure helps you to configure client applications to communicate with Db2 using SSL. In addition, starting in Db2 Version 11.1, databases configured with High Availability Disaster Recovery (HADR) can also be configured to transmit transaction log data between primary and standby database servers using SSL.
